PROFESSIONAL SUMMARY

Final year Bachelor of Science in Mathematical Sciences student at Sefako Makgatho Health Sciences University, majoring in Computer Science and Statistics with an academic average of 73%. Passionate about software development and data analytics, with experience building full stack applications, working with data and developing technical solutions through academic projects with a solid foundation in statistical analysis and a strong interest in developing practical solutions to real world problems. Seeking a graduate opportunity where I can contribute, learn and grow.

EDUCATION

Sefako Makgatho Health Sciences University

Bachelor of Science in Mathematical Sciences

Majors: Computer Science & Statistics

Expected Graduation: 2026

TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, JavaScript,

Web Technologies: HTML, CSS, flask

Database: SQLite

Tools & Technologies: Git, GitHub, VS Code, Render, Streamlit, Pandas

PROJECTS

PERSONAL PORTFOLIO WEBSITE

HTML | CSS | JavaScript | GitHub

- Designed and developed a responsive personal portfolio website.
- Showcases software development and data analytics projects.
- Integrated GitHub repositories, LinkedIn profile, downloadable CV and live project demonstrations.
- Deployed using GitHub Pages.

GitHub: <https://github.com/thabi1405/personal-portfolio>

Live Demo: <https://thabi1405.github.io/personal-portfolio/>

STUDENT MANAGEMENT SYSTEM

Java | OOP | ArrayList | CRUD | GITHUB

- Developed a Java console application to manage student records.
- Implemented CRUD operations using object- oriented programming principles.
- Applied encapsulation, input validation and dynamic storage with ArrayList.
- Used Git and GitHub for version control

GitHub: <https://github.com/thabi1405/StudentManagementSystem>

TASKFLOW – Task Management Web Application

Python | Flask | SQLite | HTML | CSS | GIT | GITHUB | RENDER

- Developed a full stack task management web application with secure user authentication
- Implemented CRUD functionality for creating, updating, deleting, and managing tasks.
- Designed an SQLite database with user specific task management and search functionality.
- Deployed the application on Render and managed version control using Git and GitHub.

GitHub: <https://github.com/thabi1405/TaskFlow>

Live Demo: <https://taskflow-1x5n.onrender.com>

WEATHER DASHBOARD

Python | Streamlit | APIs | Pandas

- Developed a real time weather dashboard that enables users to search any city and view current weather conditions and forecasts.
- Integrated Open Meteo APIs to retrieve real time weather data.
- Processed JSON responses and optimized performance using Streamlit caching.
- Deployed the application using streamlit Community Cloud

GitHub: <https://github.com/thabi1405/weather-dashboard>

Live Demo: <https://weather-dashboard-dkwoi9dbgntchvahwiblij.streamlit.app/>

RETAIL SALES ANALYTICS

Python | SQL | Streamlit | Plotly | SQLite

- Developed an interactive retail sales dashboard using Python and Streamlit.
- Cleaned and transformed retail sales data using Pandas.
- Built interactive dashboards with KPI cards, filters and business visualizations.
- Deployed the application using Streamlit Community Cloud

GitHub: <https://github.com/thabi1405/Retail-Sales-Analytics>

Live Demo: <https://retail-sales-analytics-tsvbqinwxo5i5lcqcyhpkn.streamlit.app/>
